

Group Information for Onboarding with Clever

The Alabama State Department of Education has organized districts into groups for a regional approach to onboarding with Clever. With Clever, not only are ACPs accounts created and automatically updated based on SIS data, but seamless single sign-on software enables users to login.

Find your group below and mark your calendar. When it is your group’s turn, you’ll receive information and communication directly from Clever to start the process. You will need to respond in a timely manner to this communication. If you don’t, your district will be moved to the end of the schedule.
